RAILBOAN CONSULIDATION .- The Pulas Citizen says that the Tennessee and Alabama, the Central Southern, and the Ten nesee and Alabama Central Railroad Com panies have consolidated the running the three above mentioned roads from Nashville, Tenn, to Decatur, Ala. The road will be completed early in November. when the trains will be run through t Decatur without any delay or change of care The management of the entire line is put under one set of officers. Through trains will connect Nashville and Decatur on the

20th proximo. LOUISVILLE, NEW ALBANY AND CHICAL R. R.—The steamer John Gault discharged some GMI bales of cotton, contracted by the agents of the S. D. & C. Railroad at Memphis, at New Albany yesterday. This cot on goes through via Greeneastle and Inlianapolis to Dayton, and thence by the S D. & C. Railroad.

MEMPHIS, CLARKSVILLE AND LOUISVILLE ROAD. - The Paris (Tenn.) Sentinel, of the 14th inst., says: 1. The track-laying on the Memphis, Clarksville and Louisville Railond was commenced to day at this point, and will be pushed forward with all alaerity fill finished. We are informed that the SEED AND AGRICULTURAL WARE grading is now complete over the whole ine, connecting the Memphis and Ohio toad with the Na-hvitle and Louisville Road. This will place us in daily commuacation with Louisville, an important nuction to our people in West Tennessee, s there are two markets opened to us inlead of one This road, the Meurphis, larksville and Louisville It silroad, is bound o be the great Southern thoroughfare, and ne day will be the great national route of the Union."

COST OF THE MEMPHIS BRANCH RAILROAD

THE ENGINEERS, &c. - The length of this oad, from the Junction, four miles this side of Bowlinggreen, to the Tenuessee State line, is about torly eight and three quarter miles; and the work was completed in less lime, at less cost, and in a better manner. than any other first class road in the Union. The first grading, we believe, was done near sellville, in February, 1859; but the work on the grade was not generally commenced until about April, in the year 1859. According to contracts, the grading was to he ready for the cross ties on the first of ovember, 1860, but the whole road wa graded, cross ties and iron rails laid, and he passenger cars running on the 16th of leptember, 1860. What is more remarks. le, more work was done, and of a better ! lass, than was called for in the original shedules, and at considerably less cost. The original estimate included wooden restle-work and wooden bridges; but instead of these, a solid track and iron bridges were substituted. For the information of he reader, we will give the engineer's esimate of the entire road, and the real cost :

reigional estimate Below we give a minute detail of the cost f material and construction:

"Some len days before the trial of Leech, who is now in our jail under sentence of death for the murder of Cobb, Mrs Leech (his wife) paid him a visit. We learn that their conversation was not of the most peaceable nature during her short stay, an when she went to leave, she very quietly remarked to her unfortunate husband the she supposed she would not see him again as there would be such a large crowd at the hanging, there would be no chance for he see; and besides that, the children would il want to come. The good lady then called at a grocery store, complained of the 'colic, turned off a comple of glasses of 'popskull, and then set out for her 'desolate home.'
